Education and Background: Minister Larry Vaughn attended Bishop College in 1973, where he majored in Health and Physical Education. His fascination with the human anatomy laid the foundation that led to his interest in health and wellness. In 1998, Minister Vaughn's interest shifted towards alternative health, leading him to become a Life Coach with a mission to assist family and friends struggling with health issues.

Professional Experience: Minister Vaughn has delivered numerous Natural Health speaking engagements at the SHAPE Community Center and various local churches in Houston. He is also a frequent Natural Health speaker on Ministry phone conference calls. His dedication to educating others about natural health extends to Senior Citizen events, where he has been a guest speaker, and he conducts an average of four Natural Health consultations each week. Additionally, Minister Vaughn has been a regular speaker on The Sunshine & Wellness Conference Call held weekly. His guiding principle is, "Your Health Is Your Wealth."

Testimony: Minister Vaughn's journey towards natural health began from a place of personal struggle. There was a time when he consumed whatever he wanted, without regard for the consequences, which adversely affected his health. Daily activities became challenging. In his search for healing, Minister Vaughn discovered PureTrim Products, which brought a significant improvement in his health. This transformation in his own health fueled his passion for sharing his

discovery with others. Over the past 30 years, he has accumulated numerous success stories from his natural health presentations and consultations. Minister Vaughn firmly believes that everyone has the potential to begin a Healthy Lifestyle Change, to achieve better health, and to understand both the causes of illness, sickness, disease, being overweight and the steps to living a healthy lifestyle.

My Role as a Natural Health Consultant: I am not a doctor, as a Natural Health Consultant I provide guidance on holistic and alternative health principles and practices aimed at improving overall well-being. I assess clients' health needs and recommend natural remedies, supplementation with vitamins and minerals, herbal remedies, dietary changes, lifestyle adjustments, and healthy approaches such as proper breathing, hydration, nutrition, exercise, and rest. Unlike conventional doctors, as a Natural Health Consultant I do not diagnose or treat diseases but focus on preventative measures and supporting the body's natural healing processes. My approach is personalized, always considering the unique needs and circumstances of each individual client to help them achieve full body health goals, while also monitoring their progress.

I am committed to educate and empower individuals to take control of their health through natural and holistic methods. His extensive experience and personal testimony serve as an inspiration to those seeking a healthier and more fulfilling life.
